## 2. Calendar View

The Calendar View will allow us to see daily, weekly and monthly calendar view where task are shown on their set Deadline date.

The screenshot displays a project management application interface. At the top, a dark blue header contains the word "Project" and navigation links: "Projects", "All Tasks", "Project Phases", "Reporting", and "Configuration". On the right side of the header, there are icons for a refresh button, a chat bubble, a gift icon, and a user profile for "Mitchell Admin".

Below the header, the main content area is titled "Projects / Tasks (April 2020)". A search bar contains the text "Project Scarf Knitting Project" and a search icon. Below the search bar are navigation controls: a left arrow, a "Today" button with a right arrow, and tabs for "Day", "Week", and "Month". To the right of these tabs are "Filters" and "Favorites" dropdown menus, and a set of view icons (grid, list, calendar, etc.).

The main calendar grid shows a weekly view for April 2020. The columns are labeled "Sunday" through "Saturday". The rows represent days of the month, with dates 14, 15, 16, 17, 18, and 19 visible. A task titled "Buy Yarn" is shown on Thursday, April 23rd, with a red circle containing the number "23" above it. The task is represented by a vertical bar extending from the top of the day cell.

On the right side of the main calendar, there is a secondary monthly calendar for "Apr 2020". It shows a grid of days from 29 to 2. The date 23 is highlighted with a red circle, matching the task in the main calendar. Below the monthly calendar, there is a section titled "Assigned to" with a checkmark icon and the name "Mitchell Admin" next to a small profile picture icon.
